

Technical Meeting on Regional Weather Radar Network 2021

- Basics

This meeting is part of the long-term project on weather radar networking in Southeast Asia to support information on sharing of Members' technical developments and discussion of regional radar network. The event is part of the Typhoon Committee's Annual Operating Plan 2021 (AOP 2021) in collaboration with the Regional WIGOS Project, with expected attendance by weather radar experts as per the 2019 meeting.
