

WIGOS WORKSHOP 2019

Session 3.7

Discussion on RWC mandatory functions

Discussion points

- OSCAR/Surface
 - From pre-workshop survey on OSCAR/Surface
 - RWCs' status and experience on OSCAR/Surface
 - Near-term goals in OSCAR/Surface in RA II
- WDQMS
 - RWCs' activities related to WDQMS
 - RWCs' plan for WDQMS functions
 - RWCs' high prioritized area in WDQMS
 - Near-term goals in WDQMS in RA II

From pre-workshop survey on OSCAR/Surface

Pre-workshop survey overview

Q3.6.1-1 Has anyone in your organization made a registration at National Focal Point for OSCAR/Surface?

Less than a half of the respondents have NFPs for OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

2

Q3.6.1-2 Can your National Focal Point log in OSCAR/Surface with his/her own ID and password?

Less than a half of the respondents' NFPs can log in OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

3

Q3.6.1-3 In your organization, is there anyone who is capable of logging in OSCAR/Surface other than National Focal Point?

A minority of the respondents' NFPs authorize others to log in OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

4

Q3.6.2-1 In your organization, is there anyone or a unit who manages OSCAR/Surface?

Less than a quarter of the respondents have OSCAR/Surface specialists, but two thirds can manage it at least.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

5

Q3.6.2-2 Can you confirm the registration status of observation stations in your country at OSCAR/Surface?

Two thirds of the respondents can confirm the registration status at OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

6

Q3.6.2-3 Can you modify or make corrections on registration status of observation stations in your country at OSCAR/Surface?

Less than a half of the respondents can modify the registered contents at OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

7

Q3.6.3-1 Have you ever attended a training course on OSCAR/Surface?

Most respondents haven't ever attended a training course on OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

8

Q3.6.3-2 Have you ever viewed the training document on OSCAR/Surface?

A third of the respondents have viewed the training document on OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

9

Q3.6.3-3 Do you hope to participate in training course on OSCAR/Surface?

Most respondents hope to participate in a training course on OSCAR/Surface.

RA II WIGOS Workshop - Regional WIGOS Centres (RWCs) and its services for Members, Tokyo, Japan, 6-9 March 2019

10

Pre-workshop survey summary

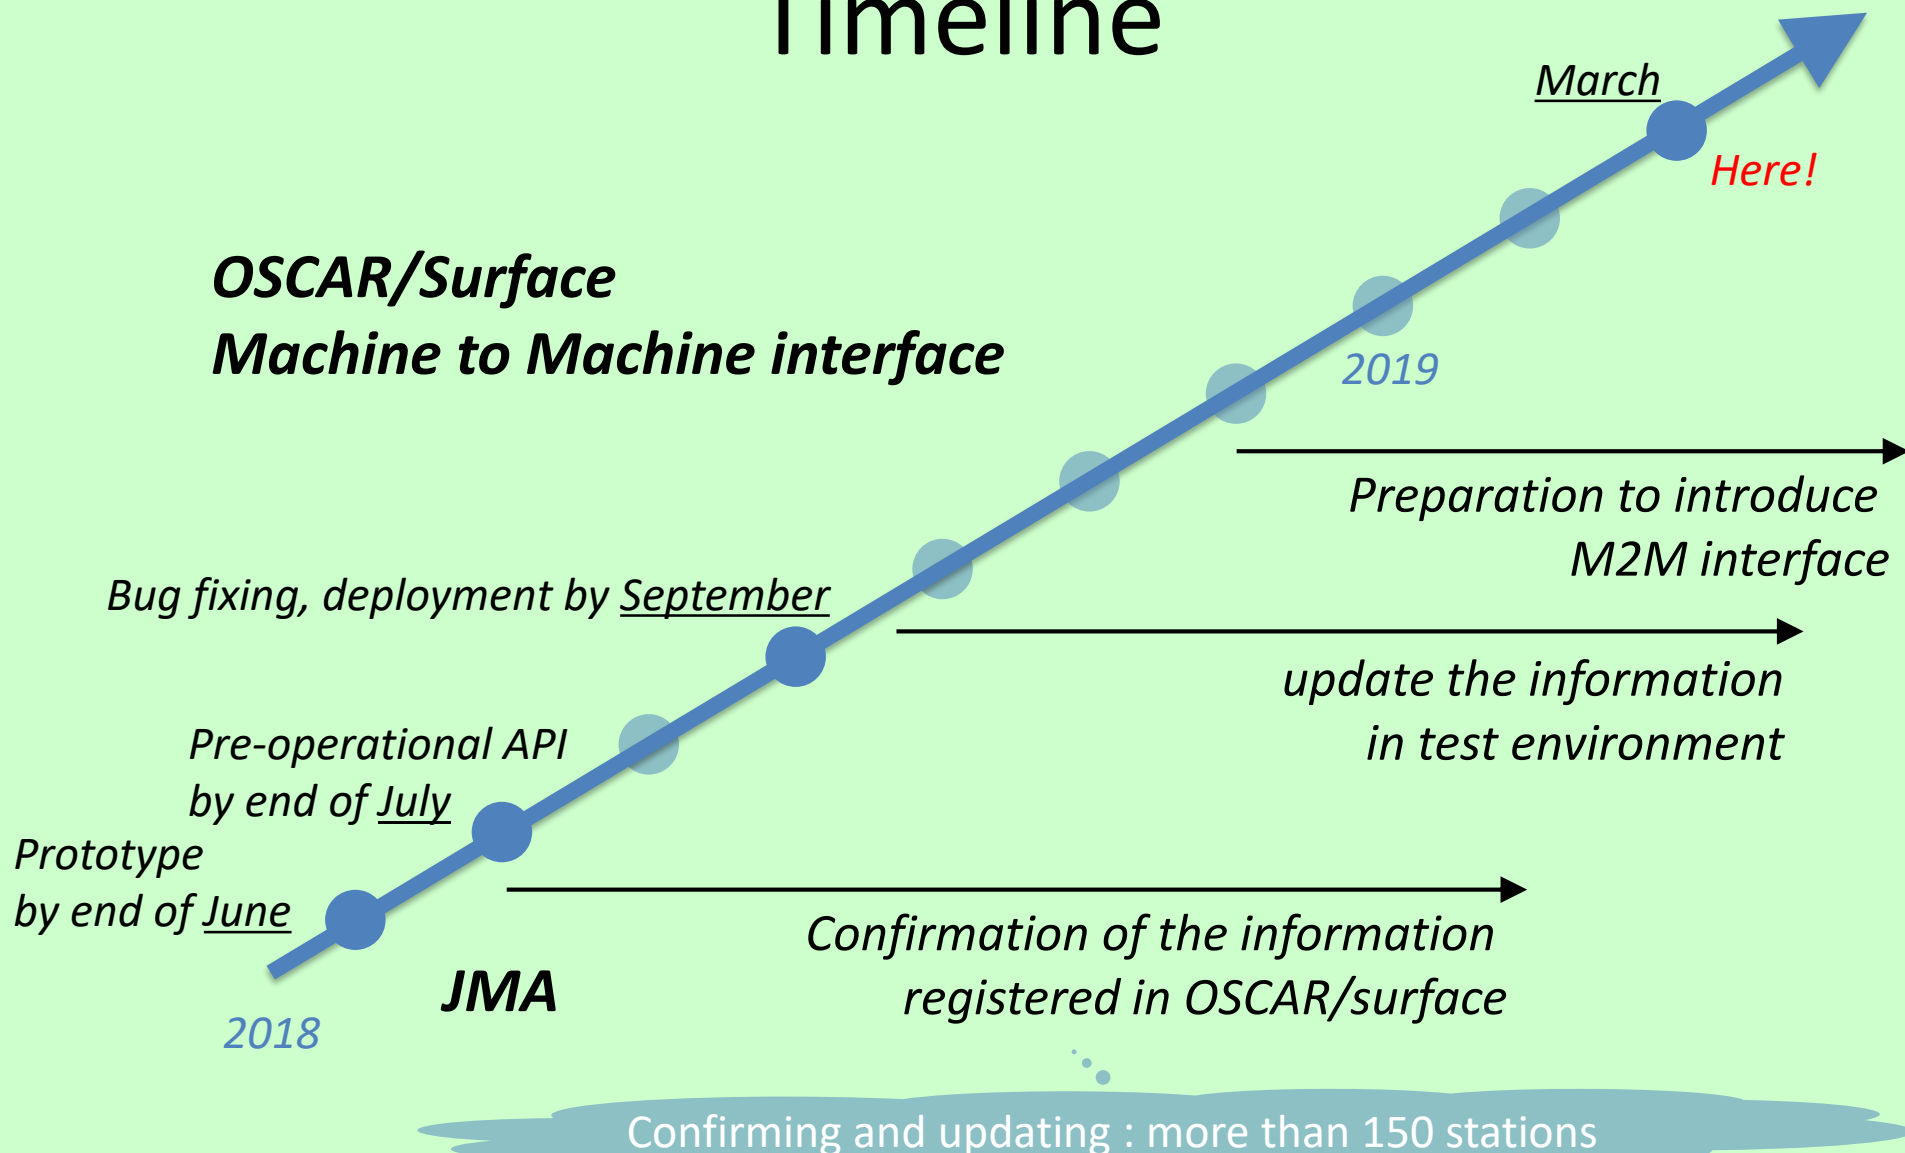

- Less than a half of the respondents have NFPs for OSCAR/Surface and can log in.
- Less than a quarter of the respondents have OSCAR/Surface specialists.
- Two thirds of the respondents can confirm the registration status; however, only less than a half can modify the contents.
- Most respondents haven't ever attended training courses on OSCAR/Surface and hope to participate in them.

JMA's comments on pre-workshop survey

- All Members should register NFPs for OSCAR/Surface as soon as possible.
- Training courses on OSCAR/Surface is expected to be very helpful for RA II Members to foster OSCAR/Surface specialists.

RWCs' status and experience on OSCAR/Surface

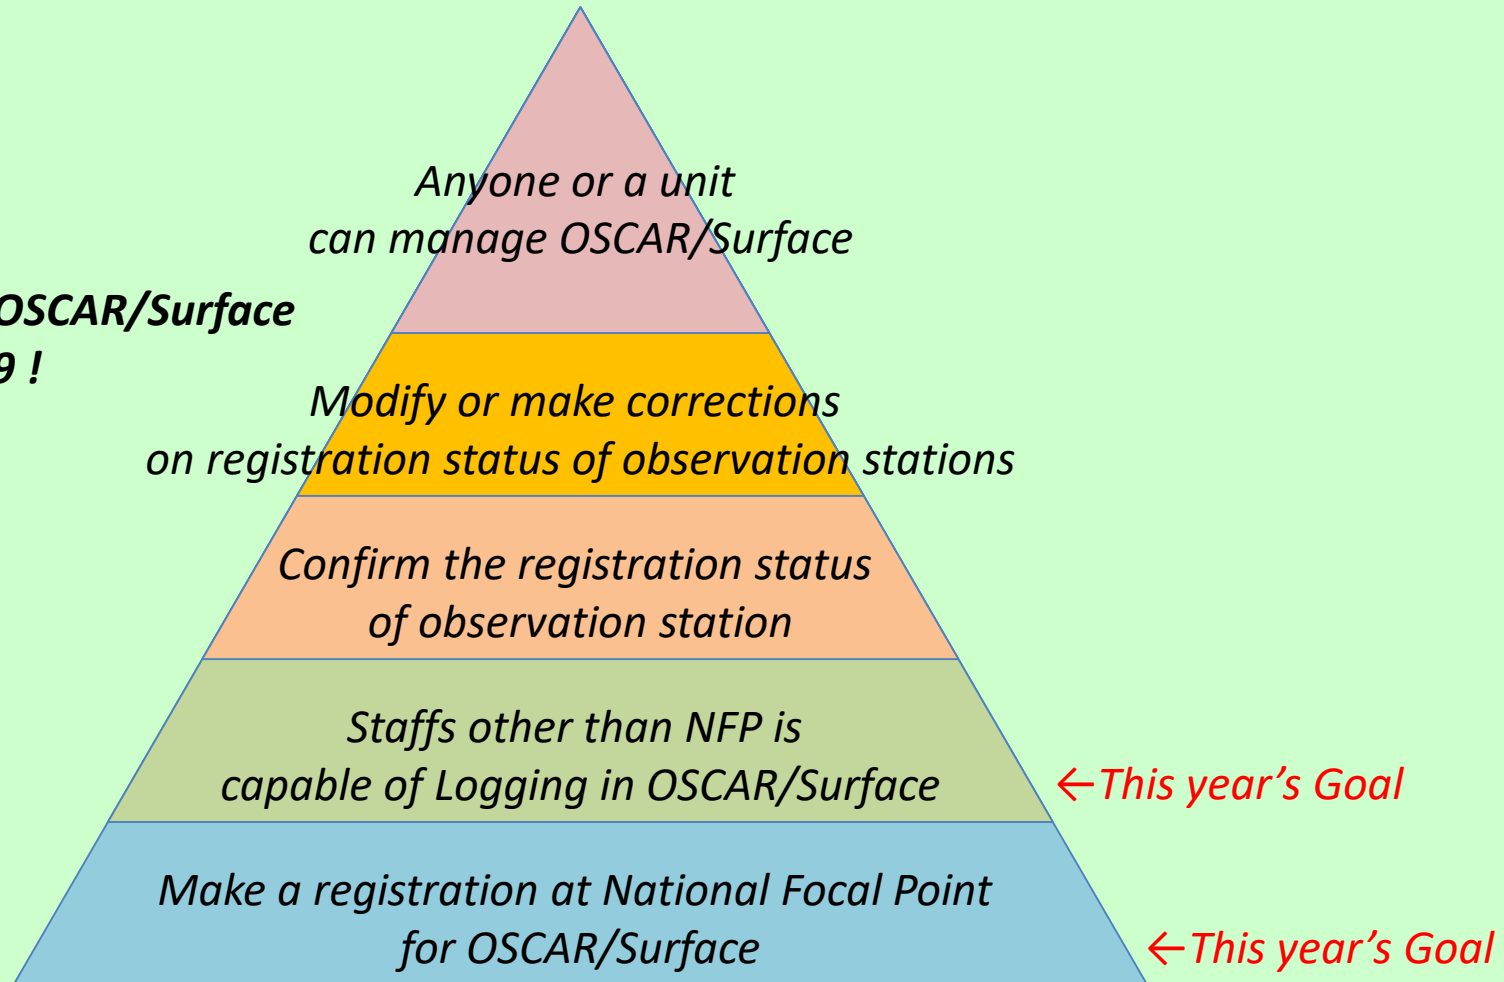

Timeline

Near-term goals in OSCAR/Surface in RA II

Future Plan

***Training course on OSCAR/Surface
In 2019 !***

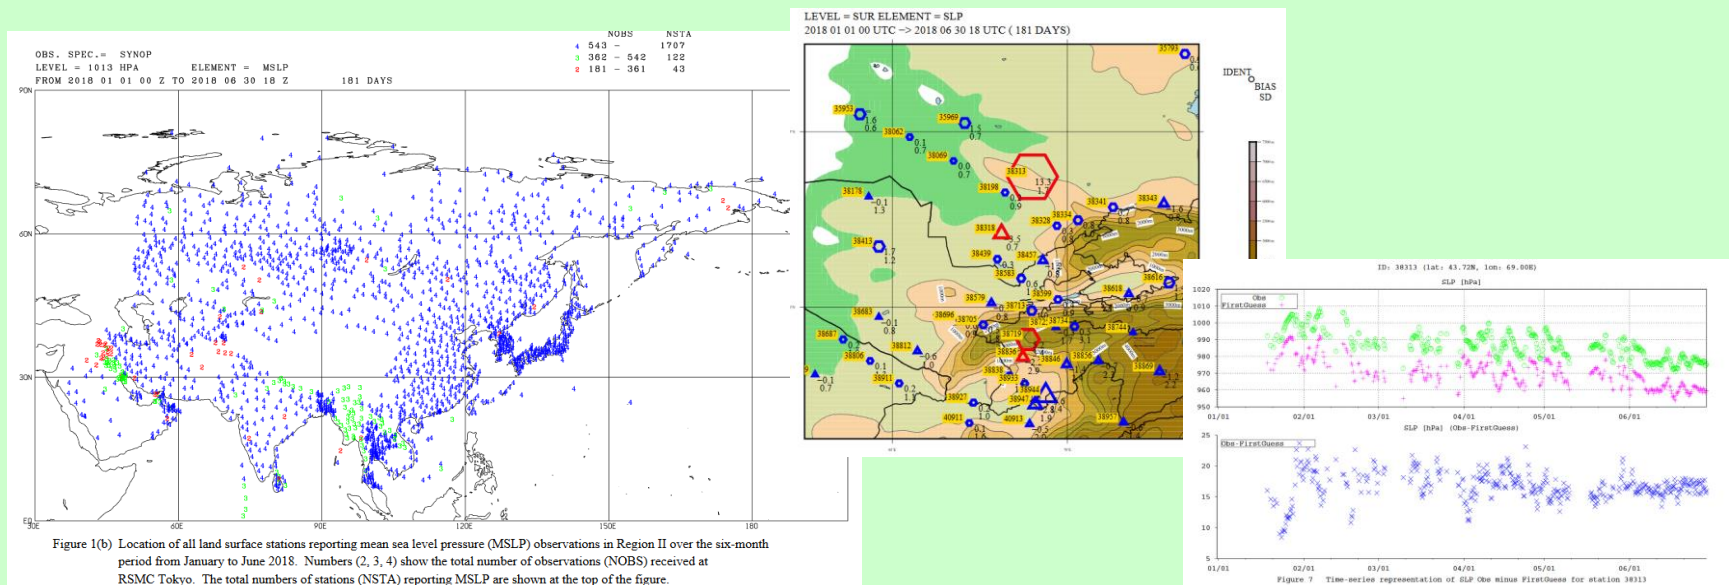

Near-term goals in OSCAR/Surface in RA II (proposed by JMA)

- All Members register NFPs for OSCAR/Surface.
- Staffs other than NFP can log in OSCAR/Surface.

RWCs' activities related to WDQMS

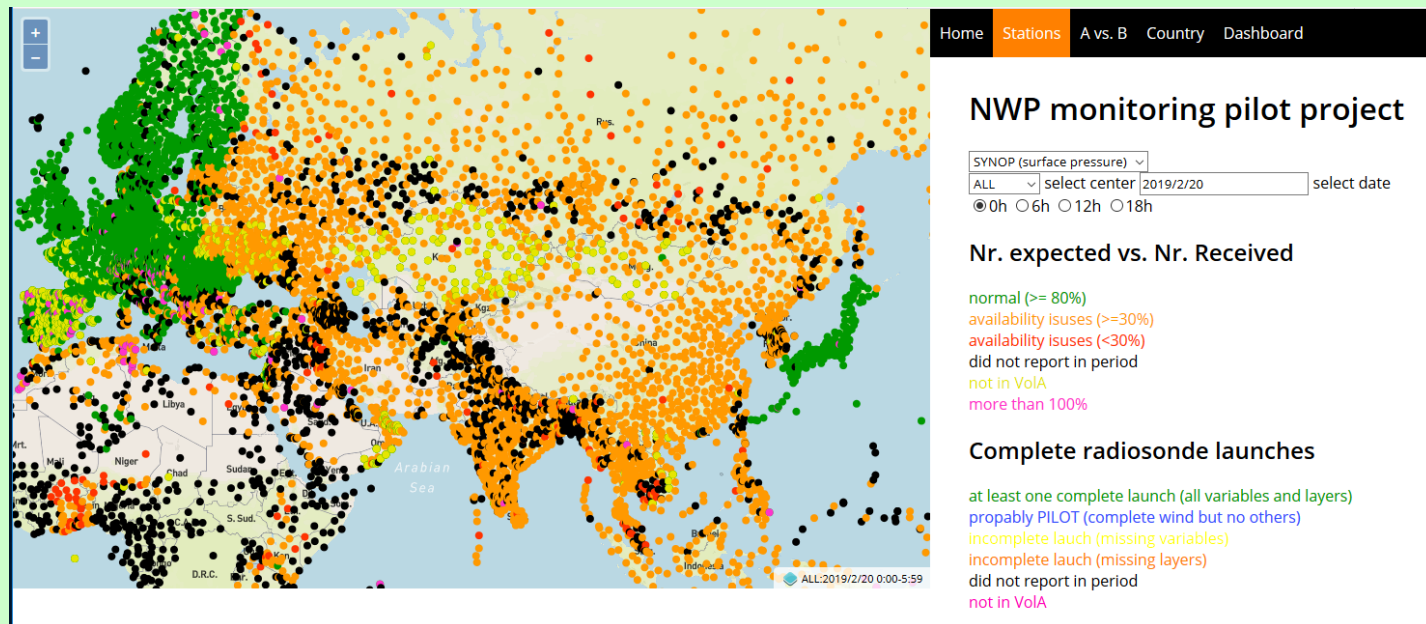

JMA's activities related to WDQMS (1)

- JMA has been providing 6-Monthly monitoring report on land surface observations in Region II since 1991.
 - This activity is based on the designation of the RSMC Tokyo as a Lead Center for monitoring the quality of land surface observations (i.e., SYNOP) in Region II by the President of the CBS in March 1991.

JMA's activities related to WDQMS (2)

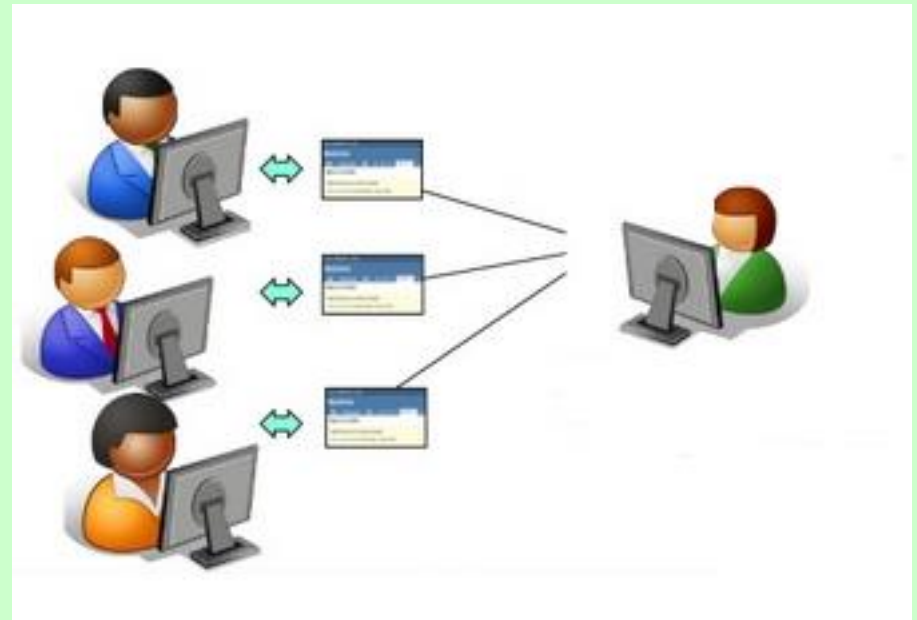

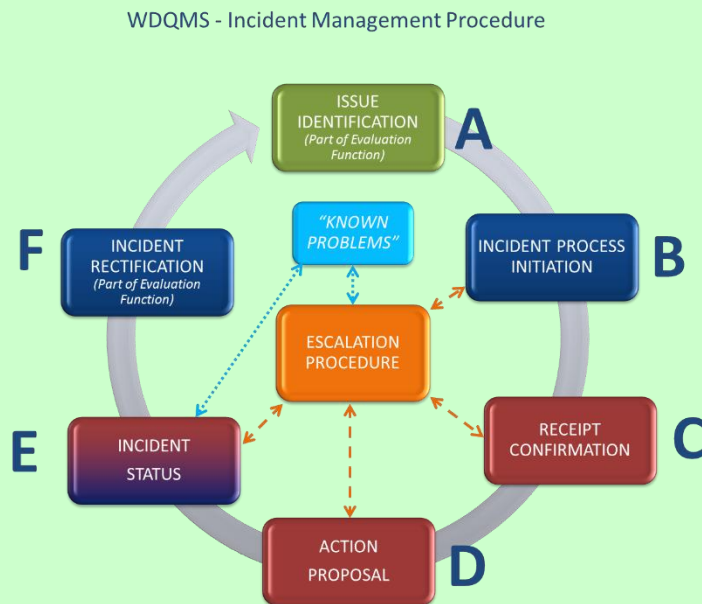

- JMA has been participating the NWP monitoring pilot project since 2016, providing monitoring output in near real time to WMO Secretariat.
- This activity is regarded as a start of the WIGOS monitoring function.

RWCs' plan for WDQMS functions

JMA's plan for Incident Management procedure

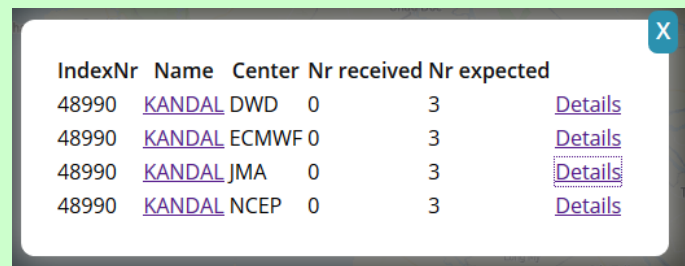

- JMA now considers using web-based issue tracking system service for Incident Management procedure during the pilot phase of RWC.
- JMA's responsible person will communicate with the contact point of member country by email to support to function the issue tracking system well.

RWCs' high prioritized area in WDQMS

JMA's high prioritized area in WDQMS

- Technical Guidelines defines the three key areas in Monitoring function: Data availability, Timeliness and Accuracy.
- JMA considers that it is suitable to take **data availability** as a first step of WDQMS activity rather than two other areas during the pilot phase of RWC.
 - Pick up the “**silent station**” from the monitoring tool
 - Make a ticket as “**Incident**” and start communication with contact point
 - Figure out the reason of silence and advise to improve the situation
 - Record the activities in issue tracking system

A screenshot of a monitoring tool window with a close button (X) in the top right corner. The window displays a table with the following columns: IndexNr, Name, Center, Nr received, and Nr expected. There are four rows of data, all with 'KANDAL' as the Name. Each row has a 'Details' link to its right.

IndexNr	Name	Center	Nr received	Nr expected	
48990	KANDAL	DWD	0	3	Details
48990	KANDAL	ECMWF	0	3	Details
48990	KANDAL	JMA	0	3	Details
48990	KANDAL	NCEP	0	3	Details

Near-term goals in WDQMS

Near-term goals in WDQMS in RA II (proposed by JMA)

- All members know WDQMS activities and understand how they works.
- All silent stations are revealed its reason of silence and their statuses to improve availability are open in the issue tracking system.
