

RA-II WIGOS Workshop

JMA Tokyo, March 6-9 2019

Workshop Recommendations

WMO OMM

World Meteorological Organization
Organisation météorologique mondiale

Draft Recommendations (to WMO Secretariat)

- Training in OSCAR/Surface to be provided to all RA-II Members;
- Guidance on the assignment of WIGOS Station IDs to be communicated to Members;
- Communication regarding OSCAR National Focal Points to be shared with Workshop participants in addition to standard communication with PR's office;
- Clear process and guidelines regarding usernames and passwords for OSCAR/Surface is requested;

Draft Recommendations

(to RA-II Members/Workshop participants)

- Participate in OSCAR Webinars when possible;
- Participate in testing of API (Machine to machine interface);
- Help spread awareness of OSCAR/Surface and related training events in your service;
- Review the availability of observations from your country as presented by WDQMS; let us know if you inconsistencies;

Draft recommendations (regarding RWCs)

- Regional WIGOS Centers to align closely with GISCs and other WMO centers where possible;
- Regional WIGOS Centers to provide capacity development support to Members aligned with them;
- Seeking direct one to one affiliation between RWCs and Members is not recommended at this point;
- RWC coordination in RA-II to continue; next opportunity for coordination meeting will be during RA-II WIGOS Workshop in Jedda April 30-May 2, 2019.

Draft recommendations
